Interested in Art or a possible career in the museum field?

Want to improve your public speaking skills?

Like working with people?

Then, you should be a docent at the AMAM!

Practicum in Museum Education will teach you about the extensive collection of art on display at the AMAM, will train you to give tours to a variety of age groups, help you hone your public speaking, and give you a chance to participate in the many exciting events that take place each semester at the AMAM. In addition, you will be exposed to the many different aspects of the museum and arts-related fields, through discussions with AMAM staff, and lectures by industry professional.

Not an Art or Art History major? NO PROBLEM. The educational tours provided to area schools by the docent program can be applied to most fields, and is a good opportunity to bring YOUR background and experience to a new pursuit.

If you need further information, or are interested in applying, please contact:
Jason Trimmer, Curator of Education
