FINDING BOOKS AND OTHER LIBRARY MATERIALS

OBIS is the Oberlin College Library’s online catalog; it lists most library materials. OBIS is searchable by Author or Title for a specific author or work, or by Subject Heading or Keyword for works about a topic, person, place, etc.

- **Subject Heading** searches are based on Library of Congress Subject Headings and search only the Subjects part of a catalog record
- **Keyword** searches find words, or a combination of words, that appear anywhere in a catalog record, including author, title, publisher, table of contents, and subjects.

Writers can be searched as both **AUTHOR** (for writings by the person) and **SUBJECT** (for writings about the person and their works)

MLA International Bibliography.
Indexes books and articles from 6,000+ journals in world literature and modern language.

The World Shakespeare Bibliography Online
Published for the Folger Shakespeare Library by Johns Hopkins University Press. Annotated entries for books, articles, book reviews, dissertations, theatrical productions, theater reviews, films, audio recordings, electronic media, and other scholarly and popular materials related to Shakespeare.

Humanities International Complete.
Indexes journals, books, and other sources on all aspects of the humanities, with particular focus on literary, scholarly and creative thought.

Academic Search Complete.
Indexes articles from 13,000+ general and academic periodicals in all disciplines; over 65% of the journals indexed include full text, and most are peer-reviewed.
**JSTOR**
Digital library of 2,400+ core academic journals (~335 in language and literature), starting with the first volume published, along with thousands of monographs and other materials, largely in social sciences and humanities disciplines; few recent issues are available (most titles have a 3-5 year “moving wall”); every word of every article is searchable, which gives it a certain edge over *MLA International Bibliography*, and is also a feature that has both an upside and a downside!

**USING DATABASES TO FIND ARTICLES IN POPULAR MAGAZINES (JOURNALISM, REVIEWS)**

**MasterFILE Premier**
Indexes 2,400+ general, mass market, and consumer-oriented magazines covering nearly all subjects; around 70% include full text.

These two related databases index articles published in U.S. and Canadian popular, general interest magazines from the late 19th c. to the present.

**SUMMON – FIRST (DEFAULT) TAB ON LIBRARY HOME PAGE SEARCH BOX**
- searches across the spectrum of library content: books, scholarly articles, newspapers, data, audio, video, images, government documents, and more; searches many, *but not all*, library resources
- draws from OBIS, many full text and article indexing databases, and (if you select the box) digital repositories at other colleges, universities, research centers, and open-access archives
- if links don’t lead to full text, be persistent or ask for help; we probably do have access
- when not to use Summon:
  - OBIS and OhioLINK are generally better for finding books
  - subject specific databases are generally better for complex or disciplinary searches
