FINDING BOOKS AND OTHER LIBRARY MATERIALS

OBIS is the Oberlin College Library's online catalog; it lists most library materials. Online requesting/borrowing is available through the **OhioLINK Library Catalog**, which combines the holdings of 90 libraries at Ohio colleges and universities, and through **SearchOhio**, which does the same for 20 Ohio public library systems. All three catalogs are searchable by **Author** or **Title** for a specific author or work, or by **Subject Heading** or **Keyword** for works about a topic, person, place, etc.

Exercise for searching OBIS for books relevant to your topic

1. Start at library home page, <http://www.oberlin.edu/library/>
2. In the Catalog tab, change the drop-down search option to Subject; search: VOTING
3. Add UNITED STATES after "voting" and re-do the search
4. Change to Keyword search and search: VOTING AND RACE
5. Click on Limit/Sort Search; for Year of Publication, in the From box type 2007, and click Search

DATABASE SEARCH TIPS

Examples are from SocINDEX using EBSCO’s Ebscohost search engine

Concept	Explanation	Example
Phrase search (quotes required)	search for an exact phrase	“death penalty” “standardized test”
Boolean logic (for keyword searching)	use Boolean operators (AND, OR, NOT) for more precise searching	[see examples below]
AND	search for records that include <i>all</i> of the words (narrows the search)	race and poverty
OR	search for records that include <i>any</i> of the words (broadens the search)	homosexual or gay or lesbian or queer
NOT	<i>exclude</i> records that include the word (narrows the search)	advertising not (television or radio)
Truncation	search for root word with any ending	immigra* [finds immigrant, immigrants, immigration, etc.]

SUMMON – default tab on library home page search box

- searches across the spectrum of library content: books, scholarly articles, newspapers, audio, video, images, data, government documents, and more; searches most, *but not all*, library resources
- draws from OBIS, full text and article indexing databases, and digital repositories from colleges, universities, research centers, and other open-access archives
- comprehensive or complex searches should be done in subject-specific databases
- OBIS and OhioLINK are generally better for finding books
- if links don't lead to full text, be persistent or ask for help; we sometimes *do* have access

Exercise for searching with Summon for additional publications relevant to your topic

1. From the library home page, make sure the Summon tab is selected
2. In the Search box, type: VOTING SOCIAL CLASS
3. Under Refine Your Search, select “Scholarly and Peer-Review”
4. Add another concept by including the word “race”
