The New Course - Oberlin, OH - Scorecard

Hole 1: Beginning from the east door of Barnard Hall, the hole is the garbage can immediately to the right of the Biggs exit of Stevenson. You must land your disc in the garbage can to complete the hole.

Hole 2: The third window in from the edge of the east wall of Stevenson. You must hit the glass of the window to complete the hole. Hole 3: The "Admissions Office" sign located southeast of the second hole. You must hit the face of the sign from the north (the edge of the sign does not count as the face). Hole 4: The first pillar to the left of the center-most pillar on the part of Fairchild Chapel facing the Asia House courtyard. You must hit the pillar, and not the its base. Hole 5: Any part of the blue light in front of Fairchild Chapel (Bosworth Hall).

Hole 6: The sign in front of Carnegie Library (labeled "Carnegie Library" or something like that). You must go through the legs of the sign from the west, i.e. backwards.

Hole 7: The right square block bordering the steps leading up to Finney Chapel. You must land your disc on top of the block and keep it there to complete the hole. Hole 8: The "Cox Administration Building" sign directly to the south of the seventh hole. You must hit the face (not the legs) of the sign from the south, i.e. backwards. **Hole 9:** The thin, vertical window in the spire on the southeast side of Peters Hall. You can either throw your disc from outside the spire into the porch behind it, or from inside the porch outward.

Hole 10: Beginning from the semicircular opening on the porch of Peters, throw around the building's circular southern wall to get a good shot at the large green garbage can in front of the southern entrance. You only need to hit the garbage can, not land your disc inside.

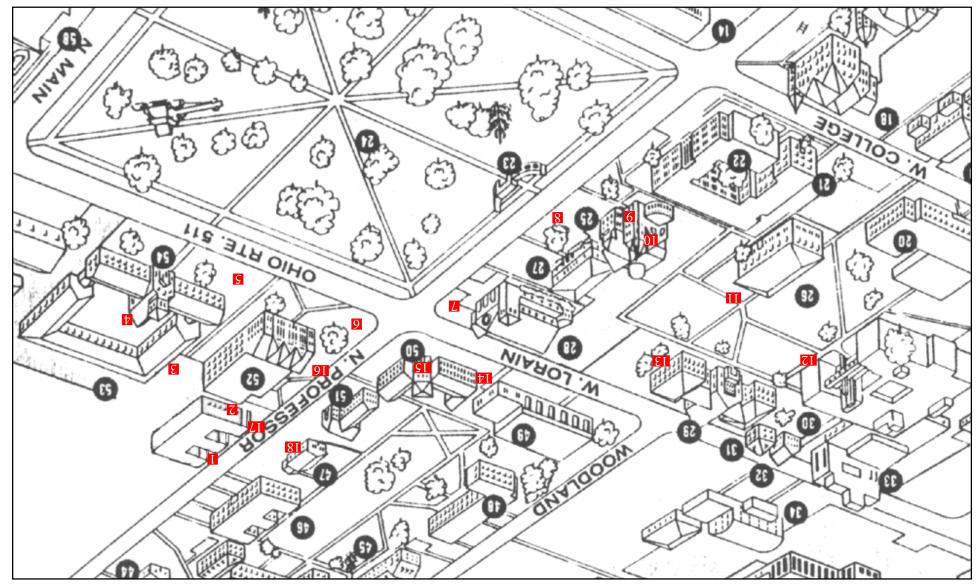

Hole 11: The blue light to the northwest of Warner Gymnasium. You must hit the light, not the post.

Hole 12: You must go under the ramp of Mudd Library either from south to north or north to south, then hit the green rubber trashcan on the right side of the ramp.

Hole 13: The trashcan to your left as you approach the east side of Wilder Hall. Hole 14: The lamppost cattycorner to the southeastern corner of Kettering.

Hole 15: The front door to Severance Hall.
Hole 16: The speed limit sign on the eastern side of Professor Street. You must hit any part of the post or the sign to complete the hole.
Hole 17: The short, cylindrical light that is slightly dimmer than all the others, located in front of the Longman entrance of Stevenson.
Hole 18: The door of Barnard Hall. You must hit the door itself, not any of the frame that borders it.
