

they could not stop him for all the area belonged to the college.

nt: What was his name? That negro Professor?

lar: (too garbled reply to make out what is said) And then another negro after we got our house, he got a long lot but he didn't do enough _____ but it was _____ alone in the _____ and then when I go headed for overseas alone. A _____ said see a lot were going to Korea and a lot going to Japan, I contact my wife and told her hold off the building by a month, because they would be joining me prior to Thanksgiving and that they did. _____ we have had some very good offers for the property, one man says, well he thought we could get better than \$10,000.00 a lot, which meant that these two lots would perhaps, perhaps cost less than \$3,000.00 , it would bring in \$20,000.00 but I imagined the man thought we were easy grabbed \$20,000.00 we take it and run. But we still have the ²lots. The same ^{1/2}applies to this place here, I understand that we would been against two other people contractors in Oberlin _____ and Clark Brothers. Well we out bid them, so we ^{got} had the place, then we had to help put in wa^{ter}--we had to put in water, sewage, seeing about the electrical, see about some other things that was in the area. And then after we had done all of these things, and returned here we found out that there was ~~was~~ we still faced difficulties from some of the people in important positions in town. Wanted to know why the _____ returned what was our purpose _____ so we bought a house and I believe almost two acres of land. Then there we bought two more acres of land. Which gave us little bit better than 4 acres (bells tolling in background) of land, we bought the house next door which was 3/4 acres, then this summer we bought the 3rd house, which is the lot 3/4 acres or even larger and then they wanted to know why you bought that? It seems as though the neighbors here has _____ and also build for the younger ones the younger starts, and it seems the city has not cared too much about
