Finding Books, Films, etc.

Once you've mined OBIS and the OhioLINK Library Catalog for materials, try searching WorldCat, which provides references to books and other materials held by libraries worldwide.

If you identify materials in WorldCat that are not listed in OBIS or OhioLINK, you may request them through the Interlibrary Loan service.

eHRAF - Human Relations Area Files

Human Relations Area Files, Inc. at Yale University collects ethnographic publications on cultures of the world -- books, manuscripts, journal articles, and dissertations by anthropologists, sociologists, other social scientists, travelers, and missionaries, and *indexes them at the paragraph level* using a specially developed system of subject codes. This allows detailed and precise searching for concepts not easily found with keywords.

Finding Articles, Essays, etc. Using Databases

Access all databases via the Library web site.

- **Anthropology Plus**
 - Largest and most comprehensive source for anthropology
 - Produced from collections at Harvard and the Royal Anthropological Institute - leads to some duplication of records
 - Coverage goes back to early 19th century publications
- **AnthroSource**
 - Access to publications produced by the American Anthropological Association
